Background

Invoice Data (2020 - 2021)

2,466 Invoices

100 Customers

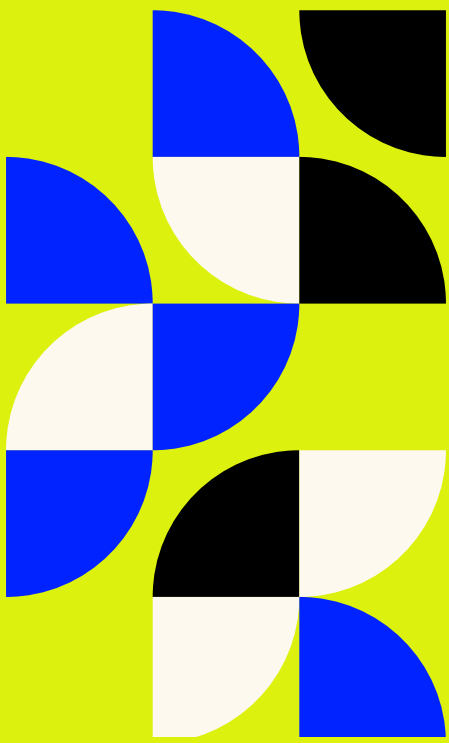

5 Countries

571 Disputes (101 are lost)

Methodology

**Understand the Business
& Data Analysis Goals**

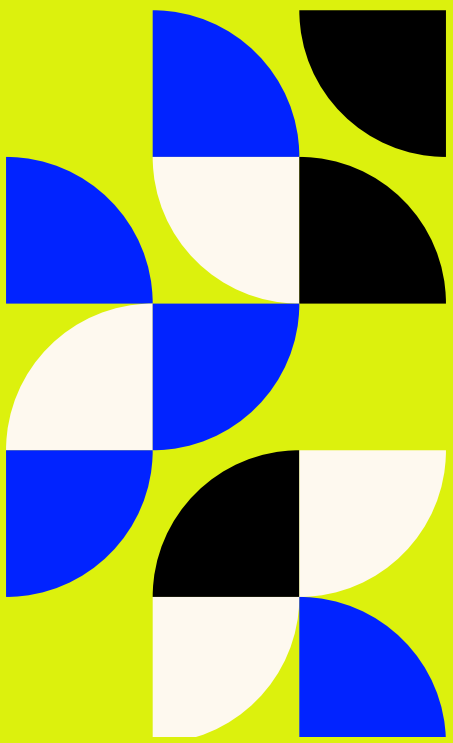

**Import & Process
Data in SQL**

**Export to Excel,
Pivot, Charts**

We are losing revenue

Dispute stats aren't pretty.

17.69%

of disputes are lost

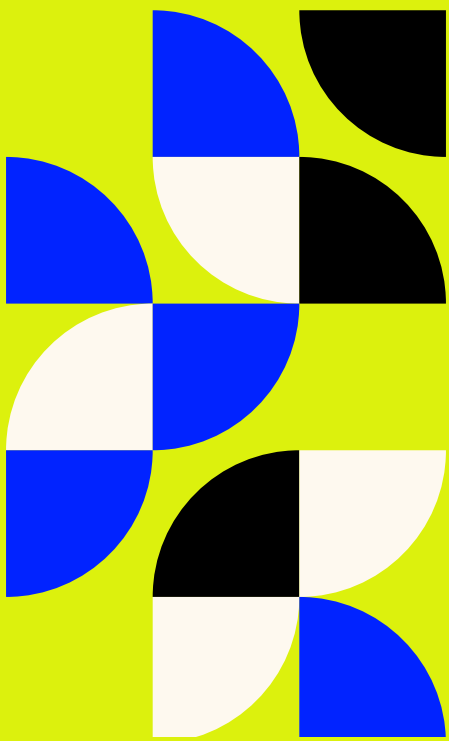

4.67%

revenue loss from disputes

\$690,167

revenue loss

Data Analysis Goals

26 days

1. Processing time in which invoices are settled.

36 days

2. Processing time to settle disputes.

17.69%

3. Percentage of disputes received that were lost.

4.67%

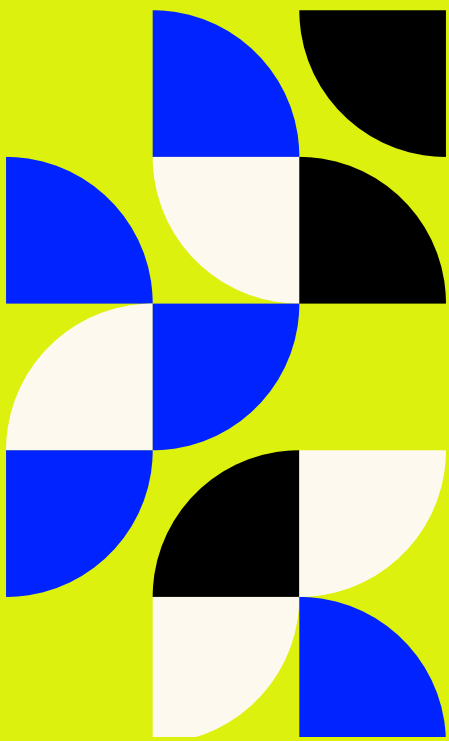

4. Percentage of revenue lost from disputes.

France

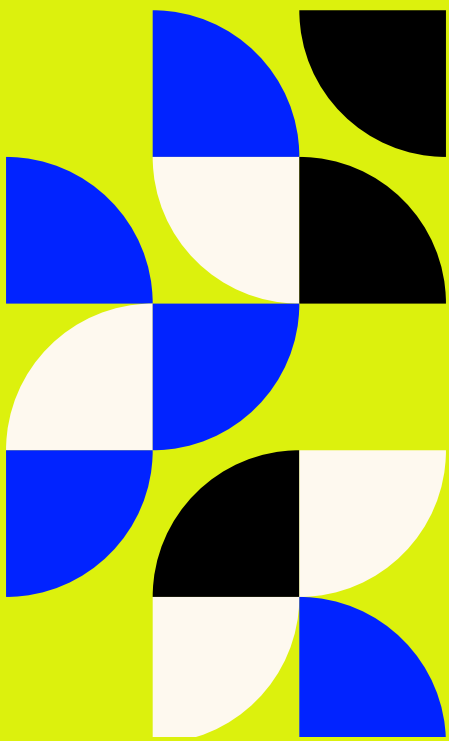

5. The country with the highest losses from lost disputes.

18% of disputes were lost

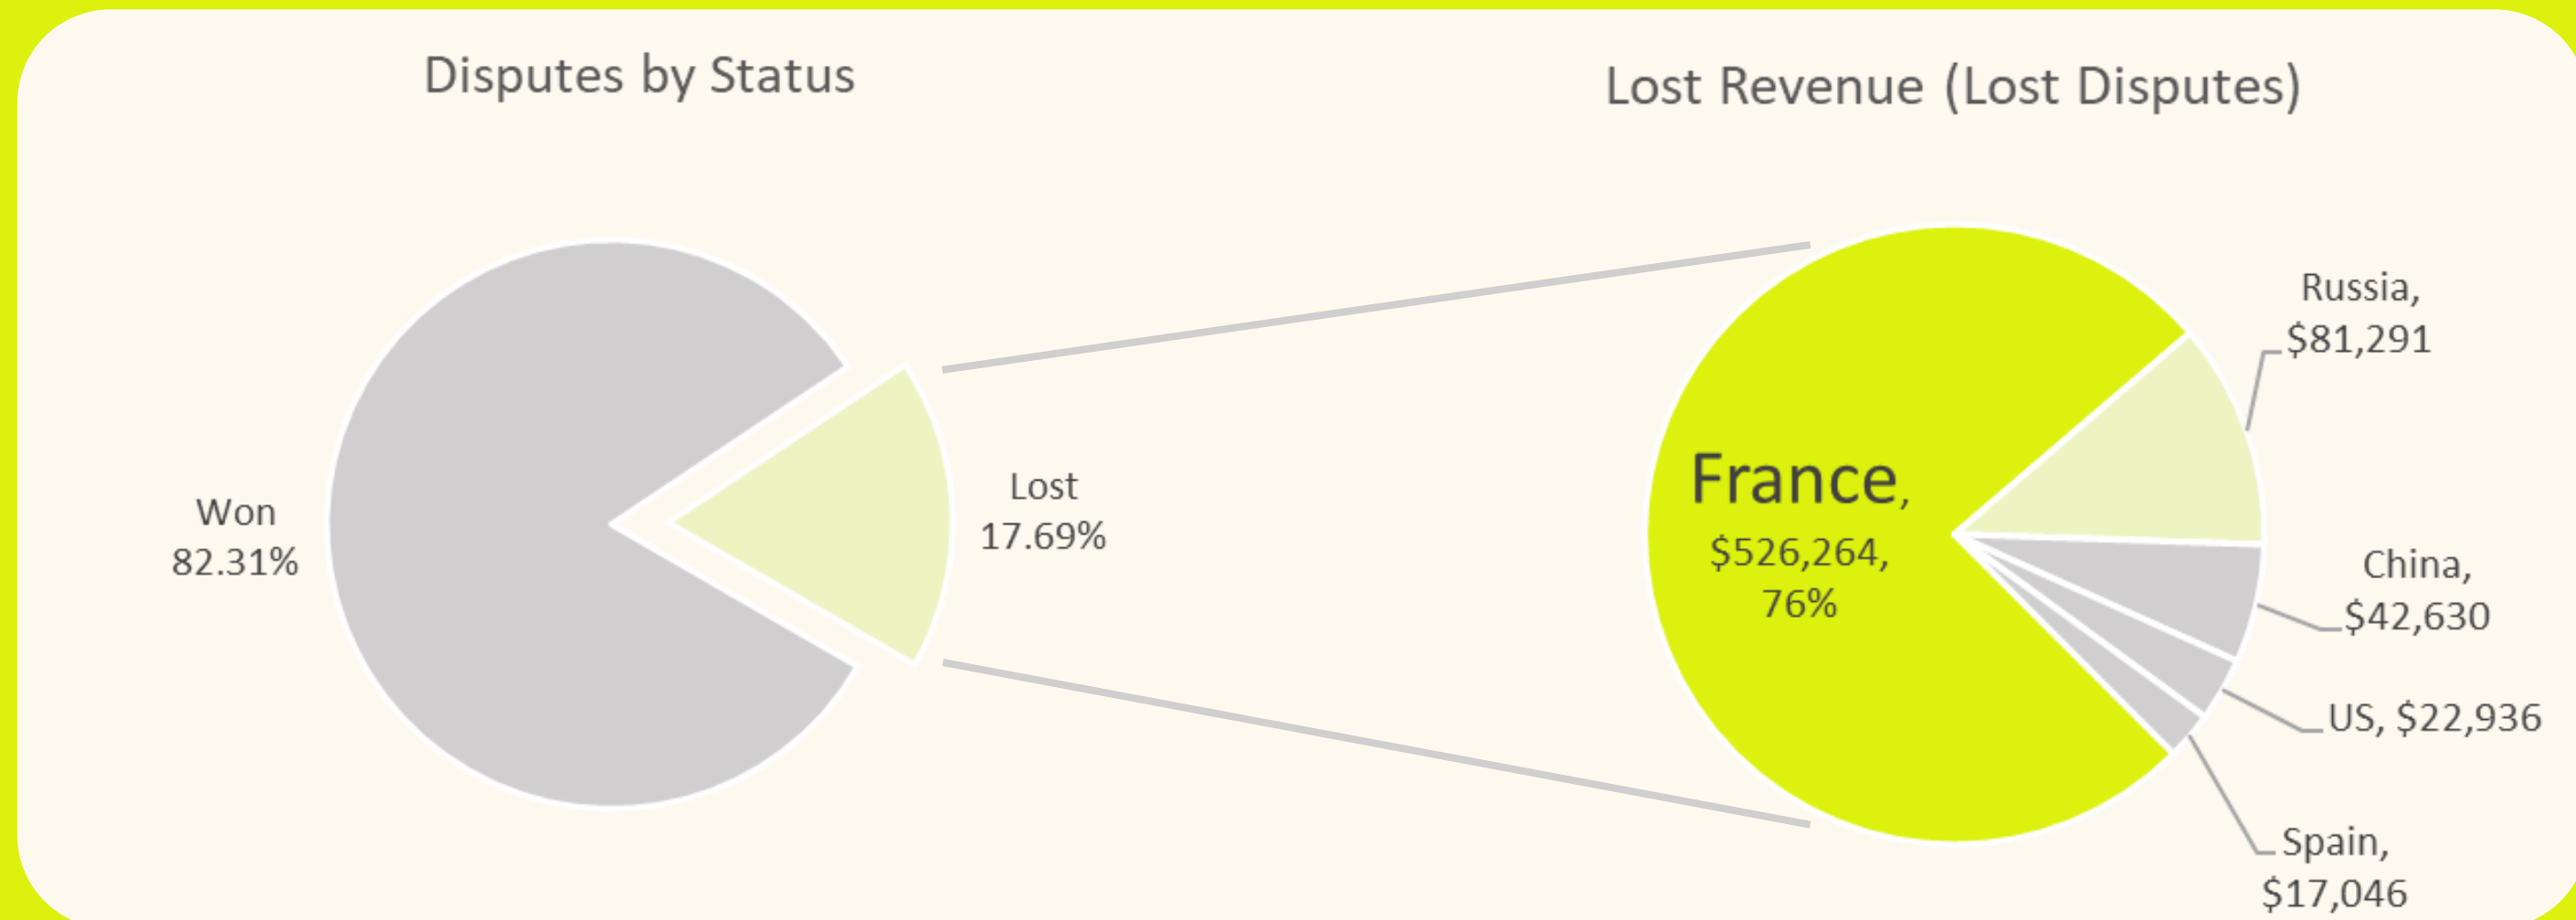

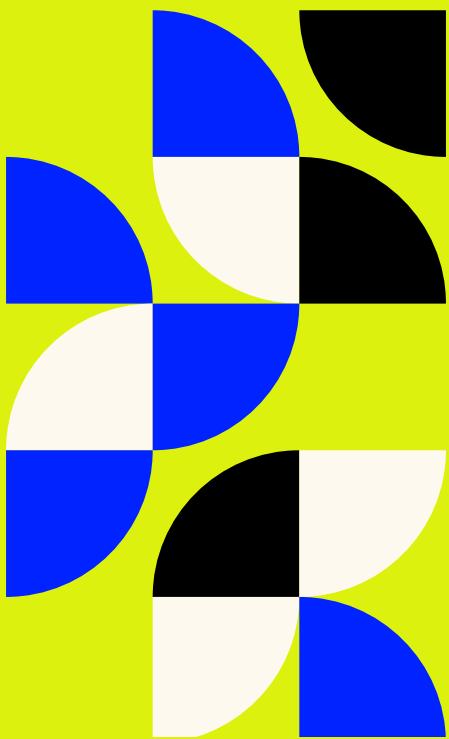

Let's focus on France

We lost the most revenue from them.

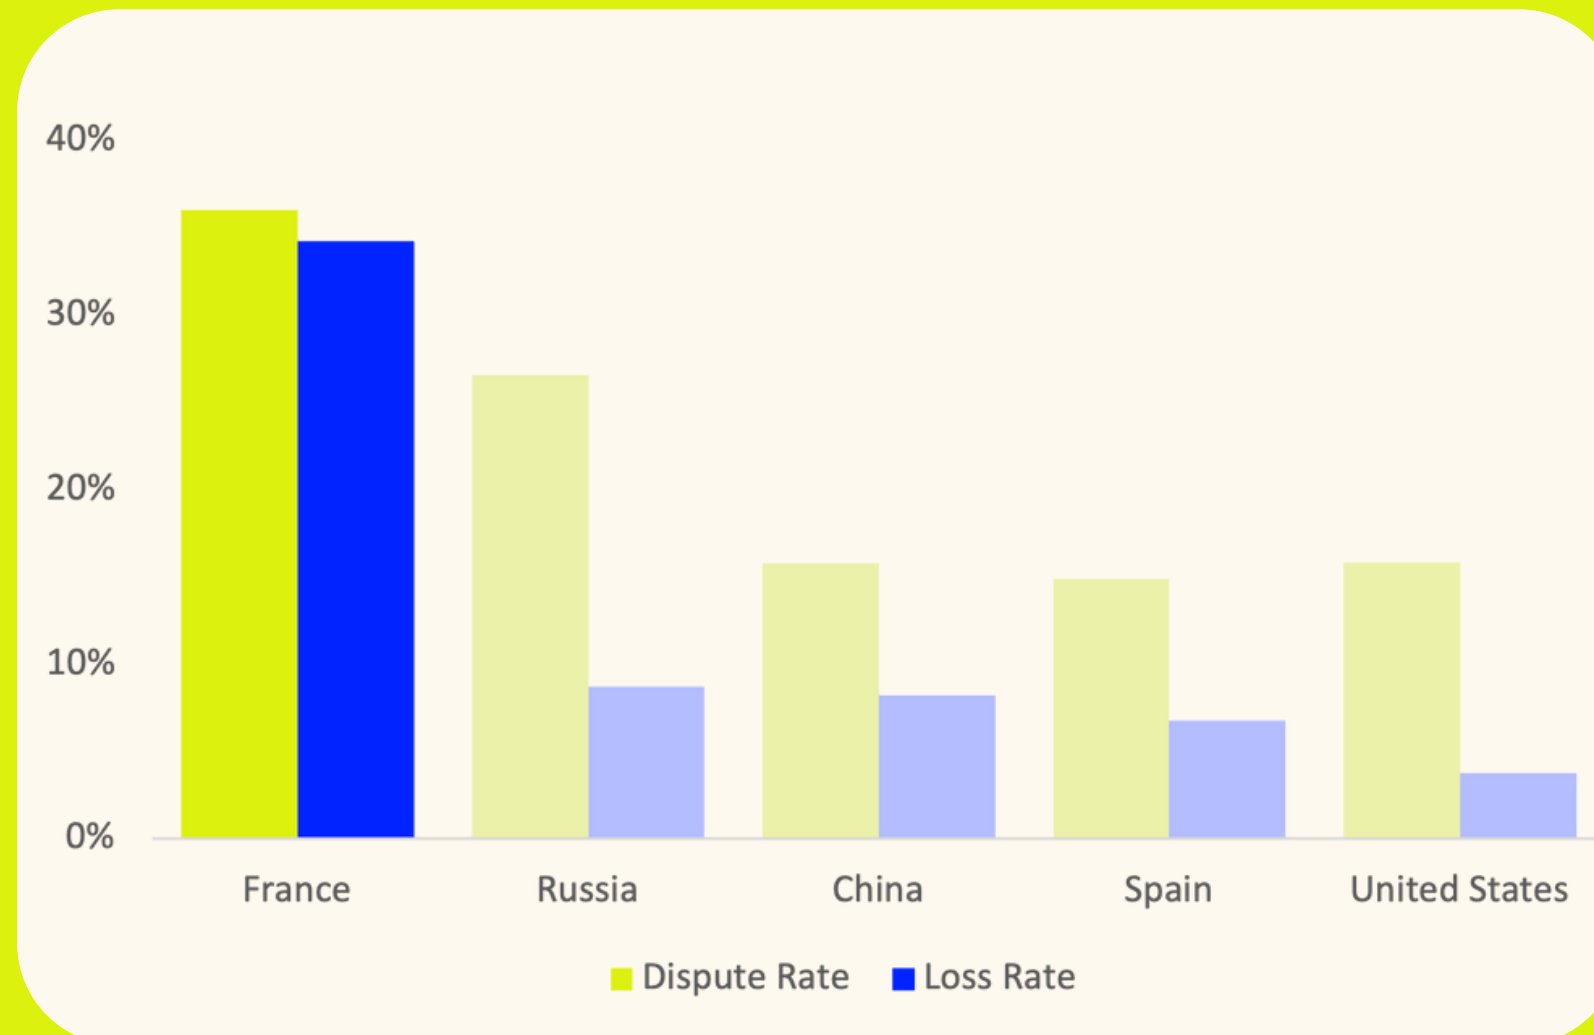

French clients filed the most disputes

We lost the most disputes from them, too.

64%

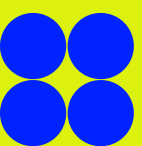

of **revenue loss** is caused by **Chronic Disputers*** in France

\$444,481

total **revenue loss** from **Chronic Disputers*** in France

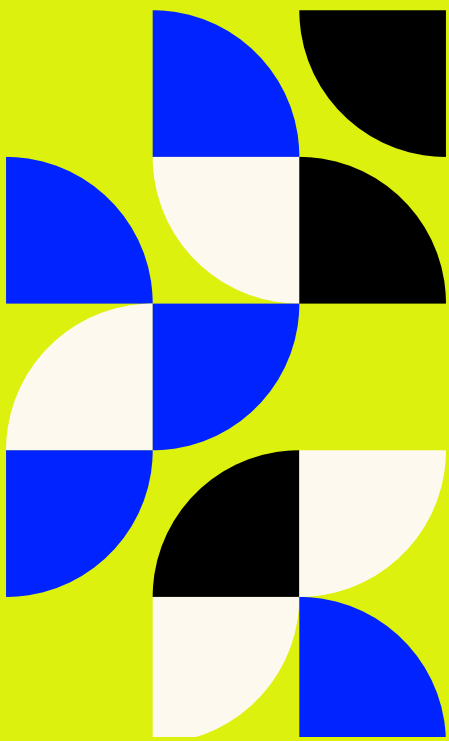

refocus

Team 13

* Chronic Disputers are clients who disputed invoices more than the average customer.

Recommendations

INVESTIGATE

closer the chronic disputers

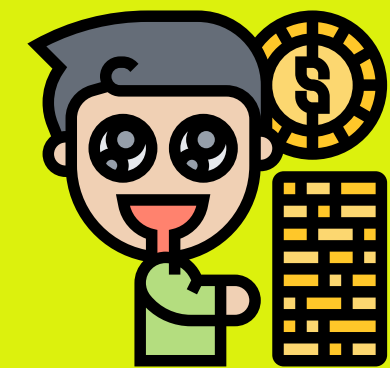

INVEST

in good legal
representation

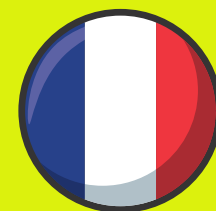

INSTATE

a process that discourages
invoice disputes

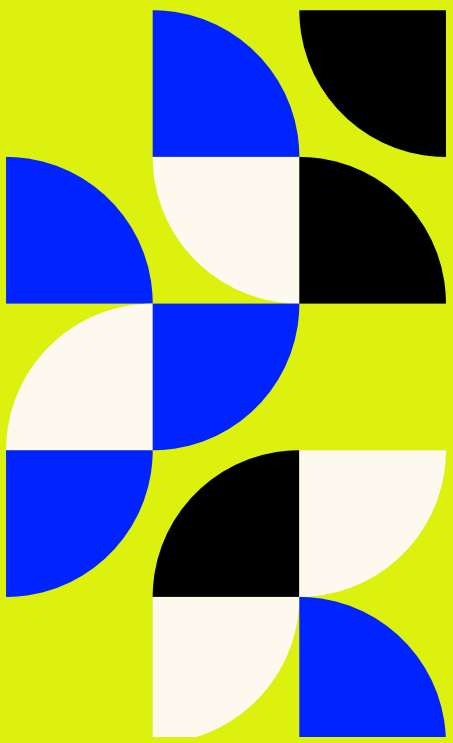

INCENTIVES

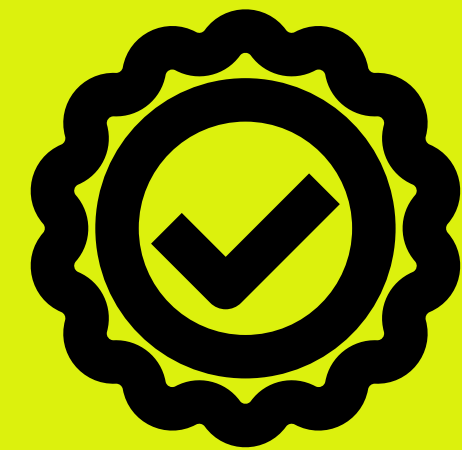

for "good client behavior" &
penalties for "bad" behavior

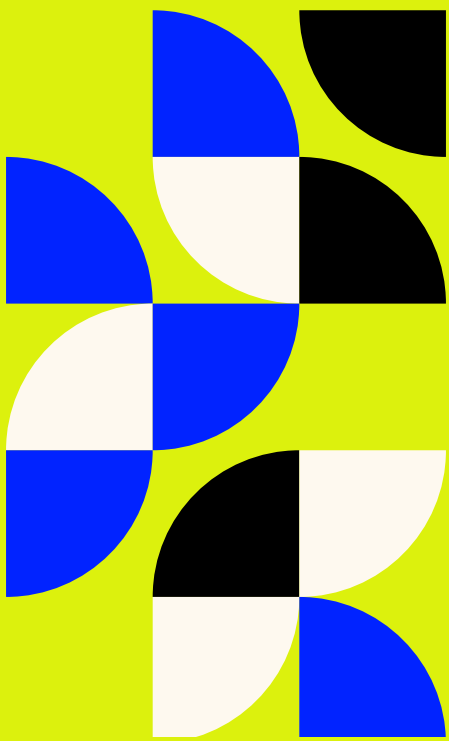

The other half of the problem
may need blanket action

Make the dispute process harder to exploit

End of Presentation

Thank you!
